

Adopt-a-Street Application

Any group wishing to participate in the City of Centennial's Adopt-a-Street program must complete the following. An applicant may only register an organization if he/she has the right to represent the organization.

Name of Applying Organization **Telephone Number**

Mailing Address **City** **Zip**

Approximate Number of People Participating in Each Cleanup _____

If the City determines at any time an adopting group does not have sufficient membership or participants, the City may assign a different stretch of a street or terminate the group's participation in the program.

Organization Leader(s): Each Adopting Organization must have one or more Organization Leaders registered with the City. An Organization Leader is responsible for scheduling cleanup dates with the City, providing all cleanup participants with City distributed safety items, and ensuring all participants follow Adopt-a-Street program rules. An organization may not have a cleanup if there is no Organization Leader present. Centennial only recognizes Organization Leaders that have signed the Adopt-a-Street Application document. This document may be updated as Organization Leaders change.

Organization Leader Name (Print) **Signature** **Date**

Additional Organization Leader Name (Print) **Signature** **Date**

Adopt-a-Street Application

Recognition: After a group has performed two successful cleanups that pass the City's inspections, the City may choose to erect a City-owned sign identifying the participating group. Because of factors that could limit sign size, groups are asked to submit both their desired sign display name and an alternative display name that uses only the organization's initials. Ultimately, the City will choose the name displayed on any sign and the name may be different from both the desired sign display name and the organization's initials.

Desired Display Name

Desired Initials Display Name

Desired Section of Street: Not all segments of Centennial Streets are available for adoption. Prior to completing this application, the applicant must communicate with the Adopt-a-Street coordinator to determine which segments are available. Then, the applicant must select which available street segment they would like to adopt.

Desired Street Segment

Commitment: Once a group has adopted a street, it will be responsible for assisting the City in the maintenance of that street for one year. After one year, the City may, in its discretion, decide to allow the group to continue to assist in the maintenance of that street for an additional year. The City requires the adopting group to follow all of the rules and terms listed in the Adopt-a-Street Information Sheet, Program Rules, and Application documents. If a group fails in this commitment, the City may, in its discretion, eliminate that group from the Centennial Adopt-a-Street program.

I, _____, am authorized to represent the Applying Organization listed on this form for the purpose of applying for the participation in the City of Centennial Adopt-a-Street Program. I have read the Adopt-a-Street Information Sheet, Program Rules, Application, and Release of Liability documents. I and my organization agree to abide by all terms and conditions of the program.
